2016 Region Fall Foliage Tour
Lukan's Farm Resort, Hawley, PA
October 14-16, 2016

All the basic details have been printed in the April Road Map, and I've spoken about the tour at the past few monthly meetings. But here's a quick update on the Fall Foliage Tour:

As of mid-April, I've received reservations and deposits from 14 car club members – either AACA NJ Region members or one of several VCCA members who acted on our invitation to join us. That leaves only TEN rooms available. If you are interested in joining us on this weekend, there are two steps: 1) Call Lukans directly at 570-226-4574 to make the room reservation and 2) write out a room deposit check for \$100.00 payable to "NJ Region AACA" and mail it to Pete Cullen, 20 Valley View Road, Verona, NJ 0044, or give it to the Symonds. The Region Treasurer will deposit all checks and write a group deposit to Lukans. This process allows the Region to handle any cancellations, as plans may sometimes change, and, only if we have a substitute for your room, you may receive a refund.

We would love to be able to accommodate every member who wishes to join in the weekend trip. You can even just make it a day

trip and join in either day's events – just contact us and let us know which day and tour you might wish to participate.

Details are still subject to change, but right now, here's the plan: On Friday morning, many tourists may gather at a diner along Route 46 in the Belvidere area, and then head out to Bangor, PA to visit the opening Jacktown festival. From there, the group may stop at an area diner, then proceed on a leisurely and scenic ride to the Lake Wallenpaupack area and check in to Lukans before dinner. For Saturday, the group may trek over to Scranton to visit the Houdini Museum and try the Coal Mine tour once again; OR if there is interest, return to Honesdale to board the Stourbridge Line Rail Road again, this time for a 4 ½ hour train excursion to Lackawaxen park for a local BBQ, and then return to Lukans in time for dinner. Both evenings will start off with pre-dinner wine & cheese in the club house, and after dinner, friendly chatter by the fireplace and ping pong table. Final tour packs will be distributed at the October meeting.

As always, any suggestions for this year's trip or next year's would be appreciated!

Bus Trip to the AACA Museum in Hershey

"It's such a comfort to take the bus, and leave the driving to us." How many of us remember that advertising slogan? As car enthusiasts we like to "See the USA in our Chevrolets."

However, every once in a while it is nice to be chauffeured.

The combined forces of the NJ Region, AACA and the Raritan River Region, CLC are hard at work; working to bring all club members a unique experience. During the summer when we want to go somewhere, we jump into our cars and go. Sometime we use our “pride & joy”-mobiles. Other times we enjoy the comfort of our modern cars. In any event, come late fall, your “pride & joy”-mobiles get tucked away for a long winter’s naps. Then we start to yearn for old car events. After the fun of summer and the frenzy of Hershey, how does one get an “old car fix”?

Here’s where a bus ride comes into play. Also here’s where our hard work pays off: we have worked diligently to have an enjoyable trip to the AACA Museum in Hershey, chauffeured professionally and safely, at a reasonable price. What helps expenses is that the Museum is free to all AACA members who present their I.D. card (it will cost you \$12.00 without your I.D card). After we are titillated by all of the wonderful exhibits at the museum, and we have completely sated by an old car fix, our chartered coach will whisk us away to Hoss’s Steak House, in Hummelstown. At Hoss’s, given a private dining room (no food fights, please) we will feast on a truly incredible menu. Our repast will include entrees of beef, chicken and fish; sides of mashed potatoes, baked potatoes, stuffing, ziti, pasta marinara, macaroni & cheese, pirogues, rice. Also peas, beans and seasoned veggies. Wait! I forgot the famous Hoss’s soup and salad bars. Everything is in the planning stages at this point. **Our trip is tentatively scheduled for November 12, 2016.** Total costs for the bus and the feast should be \$50.00, a true bargain. Price is based on 50 passengers. If we can’t get 50 passengers the trip will just not happen.

The Road Map –June 2016

If this sounds good to you, you can make it happen. Simply contact Bernie Cooney. Email is dunbar53@optonline.net. Phone is (732) 629-7544. Or talk to me at any of the meetings. If you do nothing, nothing will happen. If this sounds like an event you want to be part of, the next move is up to you. The trip must be pre-paid, but no money is being solicited at this time.

Please be aware, depending upon the bus we contract, these buses have a capacity of around 50 people. Once we hear from you, bus seats will be on a first come-first served basis. All bus seats must be pre-paid. Pick up will probably be at Saint Steven’s Church, 609 Lane Avenue, South Plainfield, NJ 07080 at 9:00 am. Tentative return time is 9:00 pm. We will be able to use the church parking lot for our vehicles. This gives us our best bus rate.

Thanks, Bernie

N J Region AACA **June Presidents Message**

Oh what a wet, soggy and cold Spring Meet, but our spirits were warm. I am proud to say that our members turned out in full force even though the weather was less than perfect. I left my house at 6:45 AM to head up to the Mennen Arena, and the first raindrops just started to fall. We received many positive comments about our new venue, and I am working on securing it for next year. Let’s call this a trial run for 2017, and we will make a few small adjustments to make it better next time. We had approximately 30 vehicles show up despite the wet weather, including 11 day of show registrants. Now that’s what I call dedication! Many thanks go to our Spring Meet chairman Pete Cullen, to our head judge Ed Geller, to our field layout chairman Joe DeFreitas, and our trophy and awards

New Jersey Region Web Site www.njaaca.org

chairman Jerry Peck. Our registrar Vince DeLisi had all the paperwork ready for the cars that did not show. In Vince's absence on the day of show, Judy Fischer handily had things under control. To our team of member volunteers who worked the field entrance check, registration, judging tally, and all others, please accept my most sincere gratitude. All I can say is, better luck next year, it cannot get any worse.

The NJ Region Board of Directors has made a decision that our annual picnic will be free to all members and their families this year. This is a bit of thanks to all the members that work hard all year to make our region a success. There will be a \$5.00 fee to any non-member guests. Please see Pete Cullen's picnic article in this issue.

June and I are preparing for our very first NJ Region Spring Fling tour. This will give me a chance to put down the paint brush and hammer for a few days and get out and enjoy the touring and fellowship. As of this writing, I am preparing our 1990 Cadillac Brougham de'Elegance for its very first showing at an AACA National Meet in Vineland, NJ in a few weeks. I hope to come home with a HPOF award. In addition, we have many assisted living home visits in June, and I hope to attend most of them. See the full calendar listing and articles for all the details.

Let's get ourselves and our vehicles out to these events, as we hope to have some drier weather in the coming months. June and I are participating in most of the upcoming events, where our schedule allows, and I expect to see many of you there also. Remember that this is your club, be active and participate. See you on the road, and remember, my line is always open.

1976 Volkswagen Super Beetle Convertible

This 1976 VW Super Beetle Convertible is owned by my wife Denise.

This car brings back a lot of memories. In 1971 we bought a nearly identical car the first day I returned home from Vietnam.

It was the first year for the Super Beetle, and although it sported the new Macpherson Strut suspension with the new style nose it still had the flat windshield and older style tail lights. Those are the only visible differences setting it apart from this 76. The other difference was the first year Super Beetles 1600cc engine produced the most horsepower of any subsequent years.

Having two more years to serve as ramp supervisor at Andrews Air Force Base, it was an economical car to own. As it turned out, it became our primary transportation for the next eight years. All three of our children came home from the hospital in that car when they were born.

When I saw this car for sale at a VW Shop in Bound Brook last year I texted a photo to Denise and she loved it.

Our grandchildren were shocked to learn that "GRANNY KNOWS HOW TO DRIVE A STICK!". We look forward to driving this car on future National AACA tours.

Pass It On For the Future – Our Future

By: Don Barlup

This past year while serving as your AACA National President, have taken Carol and I to meets and tours from Puerto Rico to Houma, LA. We have enjoyed each event and especially meeting our fellow AACA members. I have read volumes of Region and Chapter newsletters (now you know the source of some of my jokes). Most of these newsletters are looking for more youthful members while they enjoy the camaraderie of the automotive hobby and each other. Most Regions and Chapters host one or more meets and tours in their local areas each year. I continue to marvel at the collections they visit, the landmarks they drive by, and the excitement and just plain fun that they share with each other. Actually, I am in some ways jealous of what they have to offer. I want to see what they see. I want to enjoy their scenery and local landmarks, but I am not invited, as I do not belong to their AACA group! We have approximately 360 Regions and Chapters enjoying our hobby under the AACA umbrella throughout the USA, Canada, and Puerto Rico, but we continue to rely on a small percentage of them to invite us to their area of the country to show us what they are most proud of, their Region, their attractions, their hospitality, and their members. Why is this? What are we missing in the equation? Regions + Members + Cars = Fun. So, let's pass it on for the future, because the future of AACA.

Tourists enjoying a ferry ride on the 2011 SE Divisional Tour!

Editor's Note: Don, I am disappointed to learn that you felt you were not invited to any event that the New Jersey Region ran last year. By default, you were and still are invited to any event we had or are going to have.

And just to "kick the tires," I am inviting our 2016 President Bob Parrish and any other National Director who would like to attend any New Jersey Region AACA meet to be my guest!

From the Editor's Desk

I have been insisting on an absolute deadline of the 12th of the month for submissions to the Road Map. This is a discussion of

my reasons.

According to the AACA Editor's guidelines, "The newsletter needs to be mailed to reach the members 8-12 days.....but no later than 5 to 7 days before the monthly meeting." Not to meet this deadline, which I have missed on several occasions, not only costs points in the NAAP Program which the region participates in and is where my "Master Editor" Award came from, but most importantly does not serve the membership effectively.

Therefore, I must work backwards from this date to determine when submissions are necessary. The June meeting is on June 2nd. 12 days before June 2nd is May 21st, and 5 days before is Thursday, May 26th. To produce the Road Map requires approximately 50 hours of my time each month. If you consider the very small window between the 12th deadline and the 23rd, 10 days before the region meeting, 50 hours of work on the Road Map plus the time I must go to work to earn a living, there is little personal time left.

I can't just include your late submission because there is a certain recommended format of every AACA newsletter. To quote the AACA Editor's Guidelines, "While the content of the calendar will change with every issue, its format and placement should always be the same so your readers can easily find it."

There is the cover page. The NJ Region AACA Board of Directors have directed that the top 24 prior year's Region Participation Point winners have a picture of their car on the

cover, so I must adhere to this directive. The January issue lists the prior year's participation point standings. In the January issue each year, the prior year's Participation Point standings are published. If you place first through twenty fourth, you can calculate when I will need your picture and blurb. Isn't this sufficient notice?

After the mandatory listing of officers and committee members, the Calendar of Events starts the body of the publication off. In the current format of the Road Map, that will be on page 4. You can depend on that! Following the Calendar of events, which is provided by the Region Vice President, is a blurb about each event. This blurb should include the location and time of the event, plus a few words to explain what the event is and encouragement for membership attendance.

Every month the Calendar of Events is followed by the President's Message, then the Secretary's notes from the previous month's meeting, then Brenda Zimmerman's column, Celebrations, which publishes dates for celebration for individual members, then the cover photo blurbs. This is the staple of the Road Map.

As you should be able to see from the above, once the deadline passes and I have formatted the Road Map, late submissions cause me to have to reformat the publication. So please don't be offended if you submit late and you don't find it in the Road Map!

Late submissions cause late publication and for me to be up until the wee hours of the morning to get it out before the meeting.

Please be timely with your submissions!

Respectfully submitted,
Art Briggs, #1469, Editor

Technical Tips

Last month, I posted a picture of a “circuit tester” that I purchased at Auto Zone for \$3.69 and recommended that you carry one in your car.

Some have questioned how such a cheap tool could work and do a good job. Simple, it's a 6/12 volt light.

- If there is power, it lights!
- If there is no power, it does not light!

Computers work on this simple procedure; 0 or 1; yes or no. And so do the electrical components of your car. No power (0), it doesn't work. Power (1), it works. All this tool tells you is if there is or is not power where you need it.

First, connect the alligator clip to a solid ground on the car. Test the light to assure you have a good ground by putting the probe somewhere, such as the positive terminal on the battery. The tester should light and if it does not, you must change the location of the alligator clip to a better ground. As long as it works, you are ready for testing.

65th Spring Meet - 1st at our New Location!
The Mennen Arena
Sunday, May 1st 2016

"I think I can say that this year's Spring Meet will be remembered by all who attended. I never thought that a quarter inch (of showers) could be so miserable! In my next life, I want to come back as a weatherman, no matter what they forecast, they can change it daily, as was the case for the day of our show. Over the preceding 6 days, the forecast for Sunday went from showers, to rain, to clearing, to sunny, to cloudy, and as of Saturday, cloudy in the morning with 50% chance of light showers in the afternoon. Well as our luck went, I hit showers driving through Livingston and they continued with few breaks, through the entire abbreviated Spring Meet."

Why is the first paragraph in parentheses? Because that was my eerily similar report from the 2009 58th Spring Meet – the last time we had a washout.

The result for 2016 was that even though we had a good preregistration of 110 cars, only 30 cars arrived on the show field, including 11 'day of show' registrants – talk about die-hard enthusiasts! Only two of the vendors bothered to set up. There were just a few curious spectators as well.

"We kept the car registration open until 11:30am, very promptly started with judging, and began awarding trophies before 1pm! One observation was that many of the cars attending qualified for awards! And the rain continued for the following week." Another repeated quote that applies!

I have to thank all the Region members who volunteered to do a task or two under trying conditions – from the Safety Check team, to the Registration Table (standby team), parking and field layout, Admissions, all the Judges,

the Cake and Book Sales and Membership tables (and tents), Tabulation, Trophies and Club Properties Set-up. I thanked those involved by name at the May meeting,

Another note of appreciation must go to the generous businesses and individuals who sponsored all of the trophy classes! The list of sponsors and door prize donors are included in this issue of the Road Map, so please be sure to keep them in mind when considering a purchase or a service!

On the lighter side, all comments regarding the new venue were positive, the public area inside the arena was nice and warm and dry, with real bathrooms and a great snack bar - we didn't have to deal with porta-potties this year!

Be sure to visit the Region website for downloadable color photos of all cars present (thanks to Tim Schimmel) and the Trophy winning owners.

If anyone has any suggestions or comments regarding the Spring Meet, please contact one of the Region officers, or myself. Thanks again to all who helped pull off this year's 58th Annual Spring Meet!

Pete Cullen, Jr.
Spring Meet Chairman
